Hi Sabrina:

I hope you had a good holiday weekend. We do have some feedback on the Quickscore and the results of the analytical data documentation review - we have summarized it in a TA Support Document, which is currently in final stages. It shouldn't be too much longer. Thank you.

Hi Katharine, Here is START's revised Quickscore. Your input would be appreciated. I still need to fully review it. It looked pretty good, although I thought we still were over 28.5 with the wetlands only scenario...
